

What's in the box

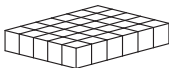

Instruction

Board mat

Teatergent

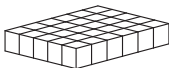

30 cubes

Board tray

Teatergent

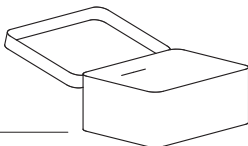

30 cubes

Board tray

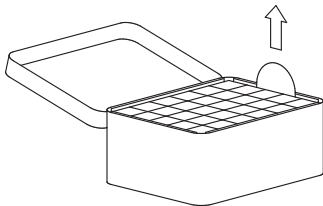

Metal box

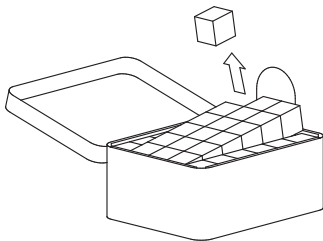

How to take the cubes out

Pull the tray handle up.

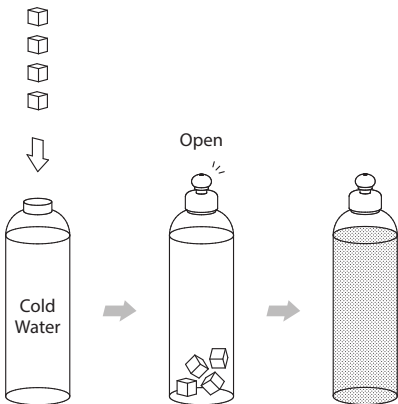

Take the cubes out.

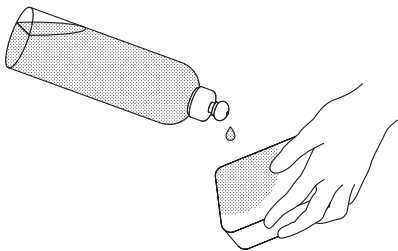

How to make the liquid

Drop 4 cubes into a 450 mL bottle of cool water, keep the nozzle cap open and wait for 30 minutes.

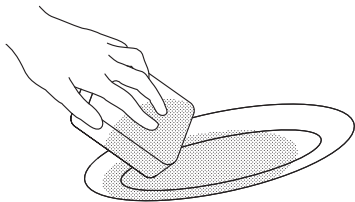

How to use the liquid

Put liquid on the sponge.

Use the sponge to wash dishes.

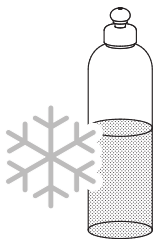

What else to wash

Besides dishes, you can use the liquid to wash cookware, utensils, chopping board, baby bottle, pet bowls, fruits and vegetables.

Note: Wash Teflon cookware, fine glass and porcelain with gentle.

How to store the liquid

When not in use, store the liquid in the fridge. The optimum fridge temperature range is 3 to 5 °C, or 37 to 41 °F.

Powerful Detergency

Tea makes us feel refreshing after having a greasy meal, thanks to “tea saponin”. Now, we amplify this effect by 130 times to decompose and emulsify oil rapidly.

Less than
0.1% of tea
saponin in leaf

More than
13% of tea
saponin in seed

Natural Antibacterial

High concentration “tea saponin” from tea seed can inhibit bad bacteria such as Escherichia coli (E. coli) without side effects.

The SGS lab test report shows how good “tea saponin” can inhibit bad bacteria. For more information, see report from International Research Journal of Pharmacy (IRJP).

We believe

Kitchen, where we cook and eat, is the place for food and food-grade supplies only, not for chemicals.

That's why Teatergent is made from 100% food-grade materials, and manufactured by food factory.

Thank you for choosing to live a healthier life, and taking a good care of yourself, your beloved ones and our green planet.

The logo of Teatergent is a tea flower (Camellia japonica)
